

I'm writing in regards to changing the FM translator for K-Love radio station in my area. I do not feel that would be right for this station to be forced off the air. K-LOVE, which is 94.3 in Elgin, IL serves a large community of believers. We are exposed to positive and uplifting music and commentary every day. By changing the translator, many people would not be exposed to positive changes in thier lives. I believe that K-Love fills a need that is important to enriching the lives of children and adults. It promotes positive ways to deal with hard life issues and offers prayer to those in need. Without it many people will be empty and have no one to talk to when a tragedy occurs. Please reconsider changing the translator on K-LOVE radio stations.

Thank YOU  
Gwen Thompson
